WORK ON HOSPITAL PROGRESSES

Three Floors of East Wing Completed in Quick Time.

Carpenters, masons, electricians, plumbers, tenders, are all working like trojans on the East pavilion of the Auburn City Hospital which is rapidly nearing completion due to the steady and uninterrupted progress the Fred T. Ley Company of Springfield, Mass., has made since first breaking ground the latter part of August.

W. E. Bouler, superintendent in charge of the work, announced today that the top floor of the East wing would be poured within the next 10 days and that the roof of the pavilion would be completed by the forepart of December. This wing of the new hospital will include a spacious waiting room, private rooms, wards, maternity quarters, dental and psychiatric departments.

The progress the men are making in the construction is unusual. They broke ground the latter part of August and today three floors of the East wing have been completed, the walls erected, a large power and heating plant of concrete well started and everything in readiness for the erection of the top floor and walls.

There are 80 men working at the hospital under supervision of five foremen and three general supervisors. Two elevators have been built to hoist concrete and brick to the upper floors, steam engines and gas motors are also employed in the general construction scheme. It is expected plastering in the East pavilion will be started by the latter part of December and that temporary heating apparatus will also be installed by that time.

The finished product will be the largest in hospitals. The first floor will contain a spacious and richly decorated waiting room, psychiatric department, consultation and treatment rooms, pharmacy and dental departments, autopsy room, nurses' class rooms and demonstration quarters and a general laboratory.

The second floor will have besides a large airing balcony which will run the length of the wing on the Lansing Street side, 14 private rooms, many with baths and showers adjoining, one three bed ward, a day room, a quiet room, room for surgical dressings, and two four bed wards. A six bed ward and a serving kitchen complete the arrangement of this floor.

The third floor will also have an airing balcony. There will be 28 single bed rooms with toilets and some with adjacent showers.

The maternity ward of the hospital will be located on the fourth floor. It will comprise airing balcony, 14 single rooms, one five bed ward, one two bed ward, two delivery rooms, one sterilizing room, a labor room, a baby wash room and a nursery.

At the Jefferson Dorothy Phillips, one of the screen's best liked stars, is featured in the film headliner at the Jefferson Theater for the last half of the week in a new drama of thrills and suspense, Slander the Woman. With this feature there will be another chapter of the snappy Go-Getter pictures, in which the popular players swing into some very brisk action, and romance and comedy abound.

The vaudeville bill for tonight, Friday and Saturday is headed by Joe Small's Seven Rainbow Girls. This is one of those "glittering galaxy acts in which pretty girls handsomely gowned, sing, dance and make merry. This offering boasts considerably originality and dash and is given high ranking as an entertainment feature of the better sort.

Running this offering a close second will be Moments of Melody. Laura Ormsbee and Jack Neal are the players and they are said to be very capable musicians, vocally and as well as instrumentally. Both play the violin and both sing and Miss Ormsbee also plays the piano. The combination is said to be very delightful.

The Bison City Four, made up of Vic Milo, Frank Girard, George Hughes and Ed Roscoe, is one of the best known skating quartets in the state. The group is on the program for the last half of the week and their offering of eccentric comedy in dress and action in addition to their vocal work, is said to be the highest class in entertainment. They appear as tramp, Italian, Irish and Chappie.

Three versatile entertainers known as the Bally Hoo Trio, offer the concluding vaudeville number. The Bally Hoo opens their skit before a drop showing a circus tent. The drop rises and then they give a show. This is a concoction of songs, dances, comedy and acrobatics. Although Los Angeles is a city that knows no snow, Allen Holubar, director of Slander the Woman, starring Dorothy Phillips, the feature now being shown at the Jefferson Theater, had no trouble in securing all the ice skaters he desired when he filmed the big skating scenes in the production.

Over one hundred men, women and children answered the call issued by Holubar for professional ice skaters to appear in the picture. And all were given a trial on the ice at the United Studios, where a large indoor rink had been constructed exclusively for the production. Strange to say, fully 50 per cent. of the applicants were accomplished performers on the ice and these were immediately given parts in Slander the Woman.

Eighty-eight per cent. of the librarians in the United States are women.

BILLY SUNDAY SENDS HIS SENTIMENTS TO COOLIDGE

Nashville, Tenn., Nov. 6.—Billy Sunday sent the following telegram to President Coolidge from here yesterday:

"President Calvin Coolidge: 'One year ago when I was preaching in Charlestown, S. C. you honored me with an invitation to eat beans and brown bread with you and Mrs. Coolidge on my way home. 'I told you then to pick out the colors with which you would like to decorate the White House as the American people would keep you there four years longer. You said with a smile: 'Do you believe they will?' and I told you I thought it was a hundred to one shot. 'They surely made good that prediction on Tuesday. The latest lurk from my Oregon ranch will be there for your Thanksgiving dinner. God bless you. 'WILLIAM A. SUNDAY.'"
