ARREST "BONE" DOCTOR

Held for Manslaughter, Second Degree in Death of Gerlowski.

Charles Cyganik, 55, living one mile west of Seneca Falls, and declared by some residents of central New York to be a "bone doctor" is under arrest on a charge of manslaughter, second degree, growing out of the death, Thursday night, of Peter Gerlowski, who passed away at his home on Cottage Street.

Cyganik was arrested late last night by Sheriff Pay Teeter, after a warrant had been issued. He was brought before Recorder C. A. Wright on Wednesday.

Gerlowski was seriously injured July 3, when he fell from a fruit tree near his home. He fractured several vertebrae and also sustained injuries to his ribs, it was stated. He was taken to the City Hospital and attended by Dr. F. A. Bennett of Auburn. Doctor Bennett placed Gerlowski in a plaster cast. After a time, Gerlowski improved and was able to use his legs and feet. Other signs of improvement were also reported by attendants.

Recently, Gerlowski was removed to his home. Then Polish friends persuaded him, it is said, to secure the services of Cyganik, whom they asserted was a bone doctor and could effect a quick cure for Gerlowski.

Cyganik was summoned and treated Gerlowski at the latter's home, county officials declare. They say that Cyganik had the plaster cast removed and manipulated the vertebrae. A few days ago Gerlowski suffered a relapse. Death came to him Thursday night.

When the death of Gerlowski was reported to Attorney Kenyon, he at once set the machinery in motion for a thorough investigation. An autopsy was performed by Coroner Physician William E. Walsh, in the presence of Coroner Paul N. Parker, Dr. F. A. Bennett and the district attorney.

The autopsy showed, the officials declared, spots of blood on the vertebra, where the cast had been removed, and where, it is claimed, the manipulation took place.

A warrant was obtained and Sheriff Teeter brought Cyganik to Auburn. Officers are said to have had some difficulty for a time in locating the defendant.

The treatment alleged to have been given by Cyganik was without the consent of Doctor Bennett, it was asserted.

Gerlowski was an employe of the International Harvester Company and was well known among local Polish people.

As to Cut Prices

It is our conviction based on experience and observation that "Price Cutting" in any Trade, Profession or Business is an economic error.

Most people believe that the laborer is worthy of his hire, that the resale price of any merchandise should fairly cover its first cost, plus the cost of doing business, plus a modest profit for the dealer.

Time was when most anybody went into the retail business under the delusion that "anybody could keep a store."

Nowadays it is a recognized fact that the business of retailing is governed by hard and fast rules and that the building up of a successful retail business is dependent on a fair price for the service rendered.

You can't follow the policy of giving something for nothing and be fair to yourself or your public.

However, there is still now and then someone who thinks that the accumulated evidence of experience and statistics is all wrong, that "overhead" is a fiction, and that the relation of cost to selling price can be ignored.

When this kind of competition bobs up the established dealer of course has to meet it to protect himself and his customers as well.

We don't intend to let it be necessary for a single one of our customers to go anywhere else in town to get lower price than ours.

So from now on we are revising our prices downward to meet the lowest.

CHEMICALS PUT OUT GARAGE BLAZE

The excitement which prevailed in the downtown section last night, when the streets were thronged with people anxiously awaiting the Dempsey-Firpo fight results, was further intensified by the clang of firebells and the mad dash of roaring fire apparatus through the congested streets.

A small blaze, originating in a pile of rubbish possibly by a carelessly thrown cigarette or match, in a corner of the Nash Service Garage, was responsible for the alarm, which was sounded at 8 o'clock.

It was quickly smothered by fire chemicals and the disappointed excitement cravers took themselves to the bulletin boards to seek a thrill in the fight results.
