

MIGHTY POWER OF NIAGARA VIVIDLY SHOWN IN TALK

The Romance of Power, a graphic, illustrated talk on the progression and development of the harnessing of the tremendous latent power of the Niagara Falls and St. Lawrence River, was given this noon at the regular weekly membership luncheon of the Chamber of Commerce by George S. Anderson, an electrical expert and director of Public Relations for the Niagara Falls Power Company.

The subject of electrical development was of keen interest to all present, as all merchants have used the power generated by this high plant and were all keen to know something regarding its production and transmission. Lantern slides were flashed on a screen and Mr. Anderson explained the pictures. He contrasted the crude waterwheels of our forefathers who attempted to harness this unlimited power and showed modern turbine water wheels encased in steel jackets, some erected 200 feet below the level of the river above.

Regarding the modern output in electrical energy now taken from the falls, Mr. Anderson said that the combined horsepower of the high generators exciting their motive force from the waterfalls would equal a string of workhorses stretching from the Atlantic to the Pacific Ocean. He said that every minute these turbines were doing the work of 50 carloads of coal and that every cubic foot of water falling over the falls was capable of being converted into mechanical or electrical energy to the equivalent of 30 horsepower per second.

The figures he read were staggering, particularly in describing the high rotors and stators of the mighty generator. They weighed in the neighborhood of hundreds of tons. The whole series of pictures was mute testimony of the heroic strides electrical experts have made in transmitting latent physical powers into useful practical potentialities.

He said the transmission power of the Niagara Falls Plant had a radius of over 300 miles and that high rivers of electricity flowed through 16 counties in Western New York State. These stations he said produced one third of the electrical power used in New York State.

Notice: Euchre party, 160 Van Anden, tonight. 4 prizes and refreshments.—Advertisement.

PUBLIC SCHOOLS SHUT THURSDAY AND FRIDAY

Supt. of Schools George E. Barford announced this morning that all public schools would be closed Thursday and Friday of next week for the Thanksgiving holidays. Nothing special will take place in the schools outside of the usual observance of the day, it was announced.

HOME IN SCIPIO IS BURGLARIZED

County Sleuths Fail to Find Any Clues After Money Theft.

Sheriff Fay Teeter and Deputy Sheriff Edward Hartnett spent a large share of last night in the Town of Scipio investigating a burglary at the home of Charles A. Merritt. The owner left his home at 7 o'clock in the evening. Returning an hour and a half later, he found that some one had smashed in a window and ransacked the house. Inventory of loss showed \$27 in cash missing. The county sleuths were unable to secure any clue to identity of the burglar.

NO TICKETS HELD AFTER 7:30 P. M. FOR ROTARY SHOW

It was announced by officials of the Auburn Rotary Club, under whose auspices the Womanless Wedding will be given again tonight at the Auditorium, that no reservations will be held after 7:30 o'clock. Last night there were many reservations which were held up to certain time and the owners did not call for them. As many persons were turned away at the box office, there being no more tickets left for sale, it was decided to place the time limit for holding ticket reservations at 7:30 o'clock tonight. This will give persons who have not as yet secured tickets a chance to go to the box office tonight with a good chance of getting a few tickets for the performance.

SUM UP IN TRIAL OF 'BONE DOCTOR'

DEFENSE WITNESS SAYS VICTIM FELL OUT OF BED.

Submission of evidence in the trial of Charles Cogan, so-called "bone doctor" of Seneca County, was finished in County Court before Judge Mosher and jury at noon today. At the opening of court this morning, Albert H. Clark, attorney for the defendant, moved for the dismissal of both counts of the indictment on the ground that not a scintilla of evidence had been presented by the prosecution to show that the defendant, Cogan, contributed in any way to the death of Peter Giorowski. There was a long delay while legal authorities were looked over and finally Judge Edgar S. Mosher denied the motion. Exception to the ruling was taken by Mr. Clark.

He then swore Alex Mizelwa as his first and only witness. He testified to living at the same house and that after Giorowski had been back from the hospital, he was left alone in the house while his wife was away at work. That when he wanted anything he pounded on the wall with a stick to attract attention. The witness also testified at one time Giorowski as one time had fallen out of bed.

District Attorney Benn Kenyon called only one witness in rebuttal, Mary Giorowski, wife of the deceased, who contradicted some of the statements made by the preceding witnesses.

Attorney Albert H. Clark then made a motion for the direction of a verdict of acquittal of the defendant on the ground of lack of evidence to substantiate the crime of manslaughter. The motion was denied, exception taken to the ruling and adjournment taken to 1:30 o'clock for summing up by attorneys.

20 ON H. S. ELEVEN TO GET LETTERS

A report issued today by Karl Bohman, member of the Senior Class at the High School appointed by the Student Athletic Governing Board to keep track of those participating in athletics, shows that 20 members of the Maroon football squad, including Manager Basil Hillier, have completed the necessary requirements as stated in the Athletic Constitution and are to be awarded block letters. A new amendment, passed by last year's board, requires that all athletes must be in actual participation in at least three-fourths of the games on the schedule in order to be eligible for the coveted "A." In the case of the football season, which has just come to a close, it was necessary to have taken part in five of the seven contests on the chart.

The present Student Athletic Governing Board has ratified Bohman's report and the pig skin performers will soon be awarded their letters during chapel exercises at the school.

The following will be presented with their hard-earned monograms: Capt. Carl Schluter, end; Harold Hiser, tackle; end; Raymond Grant, guard; Richard Dillon, center; Louis Carr, guard; Kenneth Penny, tackle; Walter Andrews, end; Raymond Hoop, quarterback; Gerald Sperstein, halfback; Paul Laper, halfback; Antonio Carnicelli, fullback; Joseph Curtin, tackle; Frederick Phelps, guard; Carlton Austin, end; Avery Neagle, quarterback; Irving Lynch, halfback; Kenneth Osterberg, halfback; Worden Gilboy, guard; Paul Hodder, halfback; Basil Hillier, manager.

Harry Husek, assistant manager this year, will act in the capacity of manager next season. However, his appointment has not yet been confirmed by the Student Athletic Governing Board but it is expected that it will be forthcoming within the very near future.

BUTTER PRODUCTION MARK SET BY COW IN WAIT-HERD

An exceptional record for butters production was made recently by Westlands' Walker Segis Pontiac, of Wait herd of Auburn, according to the advanced registry office of The Holstein-Friesian Association of America.

At the age of three years and 10 months this cow produced 20,787 pounds milk containing 773.35 pounds butterfat equal to \$89.10 pounds butter in 365 days. Breeders of dairy cattle who are in a position to put time and special attention on testing work have enhanced the value of their animals greatly by the official records they have made. Dairymen whose facilities for record making are somewhat limited are given an opportunity by the advanced registry department to determine the production of their cows through the farmers' and dairymen's classes. Such classes are useful especially in affording definite information as to the production of cows when they are handled under conditions which approximate those to be found on the average dairy farm.

Nurses to Meet. The Nurses' Alumnae will meet at the parlors of the Women's Union Monday evening, Dr. Frank Bennett will speak to the nurses on a very important subject and a large attendance is requested.

SHINE INTERESTS BUY UNIVERSAL MOVIE THEATER

Schwartzwalder to Remain in Auburn—Plans Yet Indefinite.

Joseph N. Schwartzwalder, proprietor of the Universal motion picture company in Genesee Street, announced today the sale of his interests in the theater to the Shine Theatrical Enterprises with headquarters at Gettersville. The new firm will take over the theater next Sunday.

Mr. Schwartzwalder has been in the motion picture business in Auburn for the past six years, taking over Motion World in what is now the Flint Building offices and then taking over the Universal.

In both theaters he made a success by dint of hard work, courtesy to patrons and bringing to Auburn the best in high class cinema productions. Today he announces his thanks to the people of Auburn for the patronage which contributed to his success.

"Joe" stated this afternoon that he planned to take a good rest and vacation. He will make his home in Auburn and stated that his plans for the future are still in the indefinite stage. "I like Auburn. It is a wonderful city. I thought Washington, Pa., was some city in every respect until I settled in Auburn and Auburn is the best there is," remarked Mr. Schwartzwalder this afternoon.

Inquiry at the Curtis Grand, another Shine syndicate enterprise in Auburn, resulted in the information that Mr. Shine, head of the concern will be in Auburn tomorrow and definite plans for the future management of the two local theaters will be announced.

FAST GENOA STUDY CLUB HOLDS ROUSING MEETING

A rousing and enthusiastic meeting of the East Genoa Study Club was held last night for both the men and women members. The gathering was held in the home of Mr. and Mrs. Charles Upson of that village, who acted as hosts. Over 100 members were present and enjoyed a banquet. Willard Wilcox, supervisor elect, acted as toastmaster and called on members for something appropriate to the occasion. The following responded to the request: Bert Smith, Frank Huff, Arthur Burgman, D. R. Nettleton, J. S. Layne, Mrs. Mortell Wilson, Charles Tupper, Mr. and Mrs. L. F. Lee, Helen B. Shannon and Charles Upson.

Following the banquet the men gathered in a separate room to observe a rope splicing demonstration given by Mr. Lee. The ladies enjoyed a social hour among themselves.

Franklin Parent Teachers.

The Franklin Street School Club held its regular meeting at the school Wednesday afternoon. The meeting was called at 3:45. Before business was discussed the sixth grade pupils entertained with several songs and dances. Then followed the regular order of business with reports from the State Parent-Teacher convention being given at the time as no October meeting was held. It was voted to hold a food sale in the near future. Miss Tyler, principal of the school, spoke a few words asking parents to help decrease the number of illegal absences and tardiness. She explained the meaning of legal absence.

There were about 40 members present, showing a big increase in attendance. A very pleasant social hour followed.

Dance — Columbian Athletic and Social Club, 4th floor Metcalf Bldg., (take elevator). Sat. eve., Nov. 24, 8:30 to 12:00. Teeter's "Rainbow Four." Refreshments. Prizes. Free checking. 50c admission.—Advertisement.

SUPERVISORS IN LONG WRANGLE OVER INSURANCE

Whether or not insurance in any great amount should be placed on the reconstruction Court House Building was the only subject to be considered by the supervisors at their session today. The insurance proposition was discussed from every possible angle. Some supervisors favored a very small insurance on the ground that the building is supposed to be fire proof.

Others favored placing insurance up to near these probably loss to the county in case of fire, profiting by the experience gained on June 30, 1922, nearly two years ago when the Court House burned with slim insurance to cover loss and the present structure to cost close to \$200,000 of the money of the taxpayers of Cayuga County.

After a long wrangle and in which a motion to insure for \$25,000 by Supervisor Willis was lost and an amendment that the figure be placed at \$20,000 was carried, it was discovered that the manner of insurance is covered distinctly in the contract for construction.

The special committee of the board in charge of the Court House was directed to report to the board as the work progresses as to amount of insurance placed or deemed advisable to place.

Date for appearance of representatives of furniture firms with samples for inspection of the supervisors was shifted from November 23 to December 3 so that the representatives could be at home for the Thanksgiving week end.

Adjourned.

ANNOUNCING

CURRENT TOPIC SPEAKER TO BE HEARD HERE MONDAY

Revising the current talks which were given by the Women's Union many years ago, the organization announces that on Monday at 4 o'clock Mrs. William Grant Barney, a lecturer from Buffalo, will give the first of a planned series of talks on current topics. Mrs. Barney is a very entertaining speaker and it is hoped that her lecture will be well attended. Following the talks there will be an open forum whereby points of a dubious or cloudy character may be clarified by the speaker.

An interesting talk on Current Topics will be given Monday, Nov. 26, at 4 o'clock, in the parlors of the Woman's Union by Mrs. William G. Barney of Buffalo. Admission 50c.—Advertisement.
