# Ponder Budget System

## Financial Committee of Supervisors To Report To Board As To Advisability of County Following Procedure Simliar To City's

The Finance Committee of the Board of Supervisors met today at the Court House to take action and make recommendations over the new policy of operating the county on a budget system, similar to that used by the City of Auburn. The recommendations of the committee will be made at the opening of the annual session, Monday, November 13.

It is expected that business of the annual session will be cleared early as under the present law the solons will not have to act as a Board of County Canvassers the first week of the annual session. The canvass is to be made by the Board of elections.

The members of the Finance Committee are William E. Axton of Owasco, chairman; John Graney and John Ginnity of Auburn, Harry F. Clark of Springport and Arthur Body of Fleming.

The Committee on County Officers and Compensation, which held a meeting yesterday, will meet again Friday to complete work on the annual salary sheet.

The Highway Committee will meet in special session Thursday to open bids for snow fence and posts. This committee is composed of Chairman Harlan Bradley of Genoa, Winthrop Hamilton of Brutus, John G. Clark and Samuel LoPiccolo of Auburn, James Avery of Ledyard, John Forbes of Sempronius, Joseph Pollard of Aurelius.

Thomas Hanlon, chairman of the Board, sits in at the special meetings by virtue of his office.

three weeks of bitter street fighting.

Farther south the villages of Bru and Jeanmenil, approximately two miles east of Rambervillers, were captured.

Otherwise there was little but patrol activity from Aachen to the Swiss border.

The Allied troops, including American and Polish units, now have pushed to from one and one-half to nine miles from the south bank of the Maas and that river's seaward outlet, the Hollandsch Diep. The Germans are stretched out for 40 miles along this water barrier. From east to west the main crossings for the enemy are by a bridge north of Geertruidenberg, by long road and rail bridges at Moerdijk and by boat and Ferry at Willemstad.

# Stilwell Shift—

paigned with spectecular success and any basic change in the plan of leadership might be for the worse.

(2) The war against Japan on the Pacific front is peculiarly an American war and leaders here hope that as a contribution to future peace it may be brought home to the Japs that it was American armed might which finally crushed them.

At present Generalissimo Chiang Kai Shek has direct command of the China theater. It joins the British area in North Burma. The British have South Burma, the Bengal Bay area and presumably the Dutch East Indies and Malaya into the Singapore - Bornea area. From there north through the Philippines to the Aleutians it is an American command area, although Allied troops, notably Australian and New Zealand, have contributed much to the fighting.

So long as Stilwell remained in Asia he served as a sort of personal link among the China-Burma-India fronts by having British and Chinese as well as American assignments. Now that he is gone the link likewise is missing. What will happen to the campaign in north Burma is a question.

It is also a question as to how much assistance and encouragement China will continue to receive via India. In military quarters here where his work is well known Stilwell is credited with carrying on almost singlehanded his plans for revitalizing the Chinese military effort.

United States strategy, so far as it has been disclosed, evidently runs to two main objectives—an invasion of the China coast and drives into Japan itself.

It is here that ranking officers in Washington, without knowing President Roosevelt's intentions for him, fit Stilwell into the picture. There is a growing belief that the important new assignment in store for him will probably be command of an army to invade Japanese occupied China from the sea.

# SEES FREEDOM, DEMOCRACY IN GRAVE DANGER

## Rotary Warned U. S. May Succumb to the "Historic Temptation When You Fight a Thing to Become What You Fight"—Must Raise True Vision

The old standards of democracy and liberty under which the United States has advanced through the years are seriously in danger and a grave situation will be faced immediately the World War ends, Rotary was warned at its luncheon in the Palm Room of the Osborne Hotel by Dr. Milton M. McGorrill, a past president of the Rotary Club of Grand Rapids, Mich., who now is a touring representative of the Spiritual Mobilization Movement.

Liberty must be visioned as it was originally, and as ordained by the Master, said the speaker, with its spiritual and moral concepts, else there will be no liberty. There is great danger, Doctor McGorrill warned, of this country yielding to the historic temptation of becoming like the very thing it fights. He pointed to the great totalitarian set-up against which war is being waged —suggesting that unless freedom is safeguarded and free enterprise is ready to meet the post-war crisis there is a good chance that America might find itself saddled with much that it despised and fought.

Dr. McGorrill sees danger for this country in an immense concentration of power, with liberties of people choked. Centralized control can very well knock out true freedom, he said.

So, he said, many people have become self conscious, and so has the nation; doubt is entertained that all is going to be well. The questions are raised: is the old view inadequate for the new day; "is democracy itself as good as we thought it was?"

Materialism is rampant in the world; this structure can be ruinous to freedom if there is inadequacy of spiritual control, he said. While standards of living are at a high level there is vast injustice. The speaker declared that racial prejudices are sweeping the land as never before and there are other manifestations that the very evils being fought may become inherent in the land.

"We still have a nation to which refugees want to come," said the speaker. To maintain the standards of old, to safeguard democracy and to assure free enterprise in this country a chance "we must raise once more the true vision of democracy and freedom."

Just as soon as the war ends all business men should hold a prayer meeting Doctor Mc. Gorrill said, for they are going to be in a sorry fix—unless there are thought and action in time to make sure that "we do not become the thing we fight."

The Rotary meeting was largely attended, with President A. Paul Wright presiding. Joe Huther was song leader. Among the guests were Congressman John Taber and Lieut. Col. Edward Cahill of Auburn, who is home after five years in China. He was on the staff of Gen. Joseph W. Stilwell, who has just been recalled to this country from the China command.

# Farmhand Missing 15 Days Found Hanging From Rafter in Barn

Frank Vincent Rice, 65, Throop farmhand, was found dead in a barn in that town at about 11:45 o'clock this morning. His body was found suspended from a barn rafter with a noose around the man's neck.

Mr. Rice resided with a niece, Mrs. Harry Brooks of Throop, and had been missing for two weeks. A search during that time had been made and it was thought that he might have left the town. Harry Brooks continued the search this morning and discovered the body hanging in a barn on a farm adjoining the Brooks farm, which Mr. Brooks was working.

Despondency over ill health is ascribed for his determination to end his life. Coroner N. L. Woodford was notified of the hanging by Sheriff Willard Wilcox, after it had been reported to his office. The coroner rendered a suicide decision and released the body to the Glenn F. Mosher funeral establishment. Under Sheriff Edward J. Ramsay and Deputy Sheriff Gordon Fritts conducted an investigation.

The deceased was born in Ireland and never married. Surviving are a brother, Joseph Rice, in Ireland; a nephew, Frank Rice of Auburn, a niece, Mrs. Harry Brooks of Throop.

Funeral services will be held at 8:30 o'clock Thursday morning at the Glenn F. Mosher funeral parlors 93 East Genesee Street and at 9 o'clock at Holy Family Church. Burial will be in Pine Hill Cemetery, Throop.

Wartime motorists from coast to coast say...

"No car like a Studebaker!"

"Not for sale," says county official "Twice I've had attractive money offers for my Champion," says J. Stanley Howard of Liberty, Kentucky. "I won't sell because Studebaker economy and stamina in wartime mean too much to me to give up."

"No engine repair bills," says this owner "My Studebaker Champion is a joy to own these days," writes college teacher Audrey L. Packham of Florida. "I've had no engine repair bills."

Champion helped him stay in business! "I don't know how I could have carried on my real estate and insurance business without the economy and certainty of my Studebaker Champion," states Clarence A. Suggs of Phoenix, Arizona.

"Don't know why I waited so long" E. H. Fitzgerald, Minneapolis cafe manager, says: "My Studebaker Champion is a fine car and a real gas-saver. I don't know why I waited so long to own one."

LETTERS from owners have been streaming in to Studebaker headquarters from all sections of America—outspoken, fact-packed, impressive letters praising the remarkable reliability and low-cost performance of Studebaker cars.

We publish a few of those comments here. They tell you why Studebaker owners these war days appreciate Studebaker engineering and craftsmanship and hold on to their cars.
